BUCKETS AND HOPPERS

Allegheny Material Handling offers a wide range of Industrial Buckets and Hoppers designed for the bulk handling of materials in many industrial markets. These units are designed to be used both indoors and outdoors and handled with overhead cranes, yard cranes, drag lines and fork lift trucks.

These units are available in a Light Duty rated at 75 lbs. per cubic feet, Medium Duty rated at 150 lbs. per cubic feet and Heavy Duty rated at 300 lbs. per cubic feet.

We offer Scrap Charging Buckets used by the basic steel industry. These units feature bottom discharge doors controlled by an auxiliary crane hook. Other designs include rock over styles, drop bottom buckets, front discharge and drag line units.

Standard designs are available with volume capacities that range from 1/2 thru 4 cubic yards. Custom unit are available through 30 cubic yard capacities.
